Richard Karash is an independent consultant whose work covers the broad range of Organizational Learning disciplines, with special emphasis on Systems Thinking and System Dynamics. He consults and facilitates, coaches executives, develops and conducts training programs, and delivers speeches and corporate events for a wide range of organizations. Mr. Karash's focus is in developing capacity for learning and change for clients and their organizations. He creates custom training programs, conducts train-the-trainer and instructor certification, and provides executive and professional coaching. His clients include industry, high-tech, government, military, intelligence, health-care, and non-profit.

Mr. Karash is a contributor to *The Fifth Discipline Fieldbook: Strategies and Tools for Building a Learning Organization*. He has been a regular presenter at the annual Systems Thinking in Action conference and a contributor to *The Systems Thinker*. He was a founding Trustee of the Society for Organizational Learning. He is a past Chairman of the Sustainability Institute.

Mr. Karash is an active coach both for executives and for consultants. His executive coaching covers broad areas of performance and personal development. For consultants, he coaches to expand their capacities in systems thinking and organizational learning. At Xerox he taught coaching in the paradigms of Tim Gallwey and John Whitmore. As a high-tech executive, he was continuously in a role of coaching for performance.

Mr. Karash was a senior staff member at Innovation Associates, Inc. (later Arthur D. Little) from 1991 through 1995. Mr. Karash received Arthur D. Little's "Star Case" awards twice for outstanding customer satisfaction. Prior to joining IA, Mr. Karash spent nearly twenty years as an executive in technology-based companies. In 1970, he co-founded a highly successful computer software firm, Management Decision Systems, Inc., which pioneered decision support applications (now "OLAP") in finance and marketing. His professional experience there includes statistical data analysis, information technology, market research, new product development, and computer simulation modeling. From 1983 through 1986, he was chief operating officer of a company developing artificial intelligence applications software for the financial services industry and later was VP - Marketing as part of the turn-around team at Symbolics, Inc., a computer workstation vendor. Immediately prior to joining Innovation Associates, he spent several years as an independent consultant working on business strategy and strategic planning for software and other high-tech firms.

Mr. Karash holds Bachelor of Science degrees in Physics and in Management from the Massachusetts Institute of Technology, and a Master of Science from MIT's Sloan School of Management, with concentrations in Marketing and Operations Research.
